Create classes and enroll students

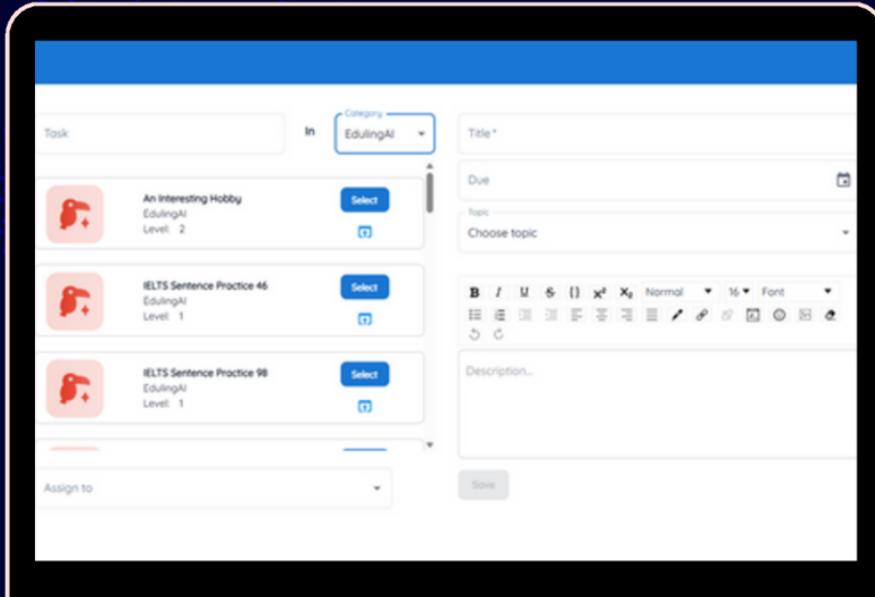

Teachers can **create their own classes**, add their students, assign tasks from our 3,500+ task library, monitor students' submissions, and offer additional feedback.

Our AI chatbots and NLP tools give teachers a real **superpower**.

We collaborate with teachers to **publish their content**, too!

How to create a class

- Go to: **educator.eduling.org**
- Create a class and upgrade your class by contacting **info@eduling.org**
- Create a class and invite your students
- Create topics and assign tasks to your students from 3,500 tasks and 56 task types on our platform.

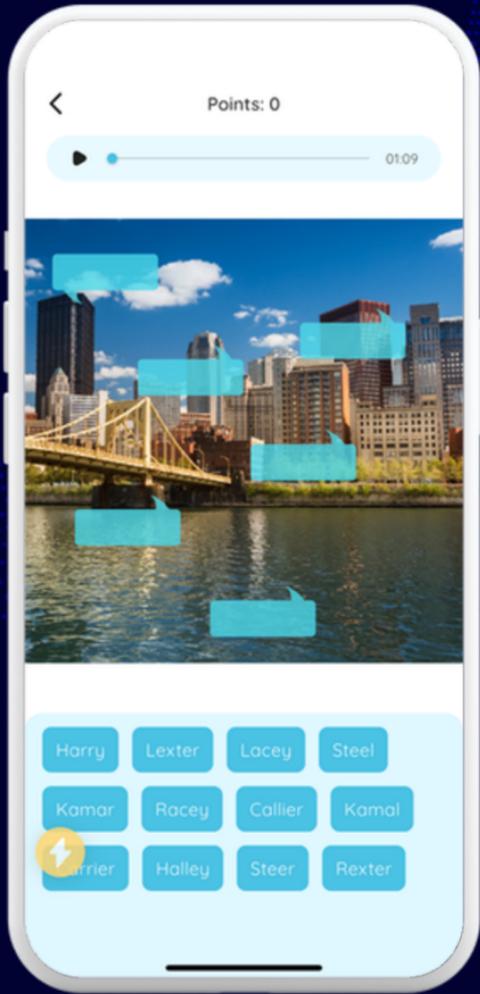

How to monitor progress

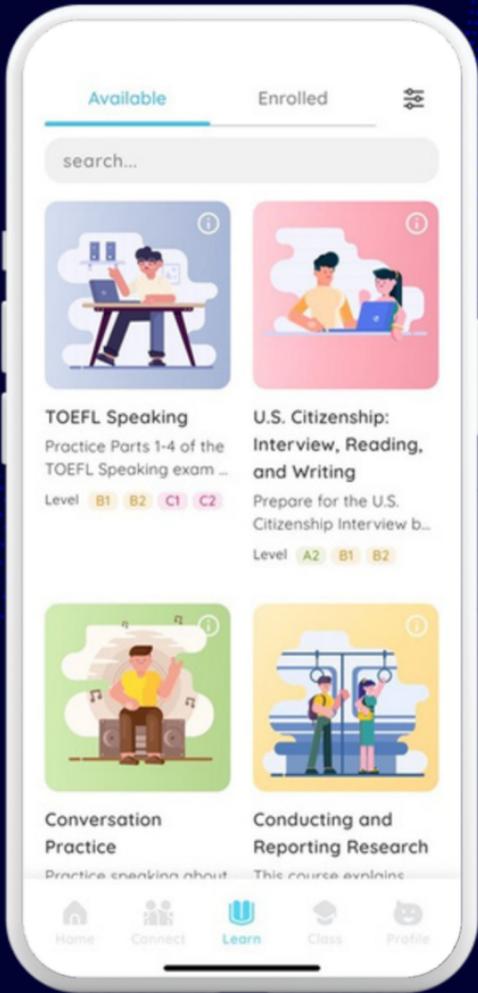

- View students' submissions, including recordings, transcript, AI feedback
- Detailed AI feedback and analytics for your review
- Add your written or oral feedback

Innovative, engaging, and diverse tasks

- **Tasks with EdulingAI.** Students get immediate feedback during the conversation.
- Videos with popup questions, audio lessons, picture-based tasks, quizzes, in-text translation, ... all embedded in the tasks

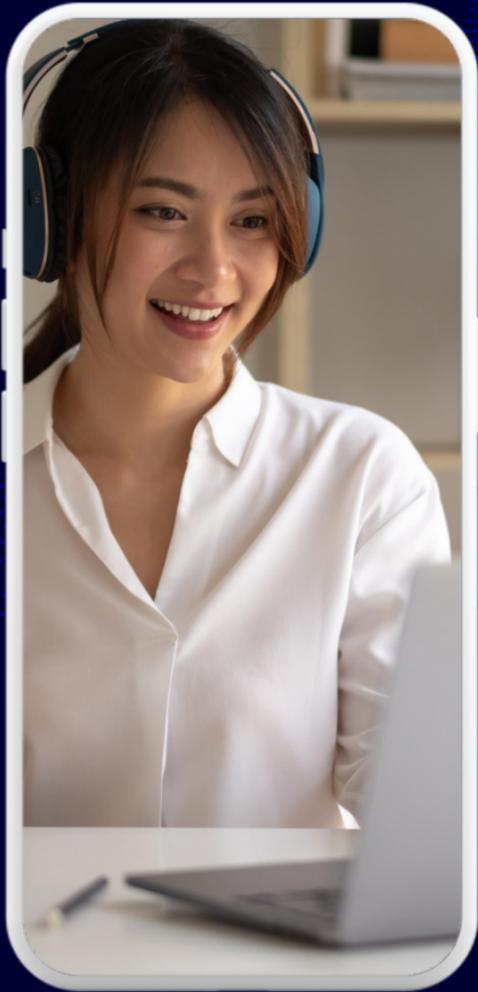

Plus, you may introduce self-paced courses to your students

- Provide students with ample extra practice through 20+ self-paced courses
- These include IELTS, TOEFL, U.S. Citizenship, Pronunciation, Writing, U.S. Culture and Idioms, and many more
